Projects Completed

As Freelancer (Upwork.com) I have the chance to complete clients' projects. For confidentiality reasons the source code are not available. Others are personal projects. To list a few:

- Time's Up (2020) 👤

Parental Control App- For Android

Time's Up is a Mobile application that helps parents track their children's phone usage. By constantly collecting data from the child's device such as location - List of downloaded apps and how long he has used them.

✳️ This Application uses Native plugins to get local data such as Location and App data. Then sends them to the database. Data are saved in cache. In order to monitor the time spent on screen parents can then send messages and warn kids when it's time to go to bed or do their homework.
